

CQ-DATV dotMOBI

Information

Welcome to the CQ-DATV magazine index. This ebook contains the cumulative index from issue 1 to the current one. It will be constantly updated as new issues are published.

The index is divided into two sections, the first by issue number and the second by author with the issue number in brackets following the title. Authors call-signs are shown in the second section, where available.

All issues of the magazine are available, free of charge, from the cq-datv web site https://cq-datv.mobi/ebooks.php

Production Team

- Trevor Brown – G8CJS
- Terry Mowles - VK5TM
- Ian Pawson - G8IQU
- Jim Andrews - KH6HTV

Section 1 : By Issue

1

- An ATV repeater for Lancashire (John Hudson)
- DigiLite System Overview (Brian Jordan)
- Fade to Black (Trevor Brown)
- Inexpensive home constructed dummy load (John Hudson)
- Shooting your own video (Trevor Brown)
- So we have a new ATV magazine that is a free download (Richard Suppards)
- Switchmode Power Supply Basics (Trevor Brown)

2

- 5 Watt 70cms Linear power amplifier suitable for DATV (Jean Yves)
- A guide to making your own PCB (Richard Cross)
- Building GB3FY part 2 (John Hudson)
- DATV-Express Project - March update report (Ken Konechy)
- Four input video switcher (Trevor Brown)
- Making a simple Frequency Counter for 10GHz - 3cm (John Hudson)
- Wedding Video Shoot (Trevor Brown)

3

- 10GHz PC controlled scanner using YIG technology (John Hudson)
- DATVtalk#1 - Looking at the DATV-Express Digital-ATV XMTR Project (Ken Konechy)
- It's communication Jim, but not as we know it! (Martin Straka)
- Multi Camera Shoot (Trevor Brown)
- New to DATV? Start here (Trevor Brown)
- SSDV (Phil Heron)
- UART 232 TO USB Converter (John Hudson)
- Updating your Input Sources for ATV. (Richard Carden)
- Watching A Big Cheese Over Switzerland (Dave Akerman)

4

- A Sensitive Thermal Power Meter (Carsten Vieland)
- Antenna Ratiometry Measurements for the 21st Century (Paul Wade)
- Construction of a simple electronic magnetic compass (John Hudson)
- DATV start here part 2 (Trevor Brown)
- DATV-Express Project - June update report (Ken Konechy)
- DATV-Express Project - update report (Ken Konechy)
- Flipping captions on the PIC based OSD generators via Sony IR Remote. (Mike Stevens)
- Introducing Project Loon: Balloon-powered Internet access (Mike Cassidy)
- Multi camera - part 2 (Trevor Brown)
- What is the Parallax Propeller? (Mike Stevens)

5

- A Complete History of ATV in Brisbane (or what I can remember) (Richard Carden)
- Building The G3RFL YIG Transmitter (Mike Berry)
- Creating your own Test Card (Richard Carden)
- DATV in GMSK (DM2CMB) (Rainer Mueller)
- DATV Testing Report - Part 6 (Bench Test DATV-Express) (Ken Konechy)
- DATVtalk02 ATV and the Digital Fork in the Road (Ken Konechy)
- HF Testing of Video with 24 KHz bandwidth on 80M (Ken Konechy)
- Multi-camera shoot - part 3 (Trevor Brown)
- QSO party (Peter Cossins)
- Simple Pre-amplifier for DATV (Richard Carden)
- SlowScan TV from the Edge of Space (Bill Brown)
- The AGAF at Friedrichshafen 2013 (Klaus Kramer)
- Tracking the ISS (Trevor Brown)

6

- 4k DATV? (Trevor Brown)
- DATV talk 03 Planning a Digital-ATV Station (Ken Konechy)
- Ham Video transmitter on board ISS Columbus module (Gaston Bertels)
- Happy Days (Trevor Brown)
- My Story (John Lukey)
- SS Ham Video launch campaign (Gaston Bertels)
- Streaming video (Tom Medlin)
- Video Switcher - Propeller Powered (Mike Stevens)
- What is wrong with ATV today? (Ian Pawson)

7

- A Digital World - part 1 (Richard Carden)
- Conferences on Amateur Television Ancient and Modern (Trevor Brown)
- Constructional Matters (Mike Cox)
- DATV talk 04 Bench-Testing a DVB-S Transmitter - Part 1 (Ken Konechy)
- DATV-Express Project - November update report (Ken Konechy)
- DATV-Express Project - October update report (Ken Konechy)
- Fixing WinTV v6 for DigiLite (Clive Reynolds)
- FUNcube (Trevor Brown)
- Internet Television (Trevor Brown)
- Known DX DATV Records (Ken Konechy)

8

- A Digital World - Part 2 (Richard Carden)
- A PIC-based simple and cheap OSD (Bruno Gavan)
- Circuit Snippets (Dave Kenward)
- DATV-Express Project - December update report (Ken Konechy)
- DATVtalk05 - Bench Testing DVB-S Transmitter - Part 2 (Ken Konechy)
- GB3FY - part 3 (John Hudson)
- High-Definition Multimedia Interface (Ian Pawson)
- IET/RSGB Meeting on the streamer (Trevor Brown)
- Propeller Video Switcher - Part 2 (Mike Stevens)
- Simple Microwave Power Meter (John Hudson)

- The times they are a changing (Trevor Brown)

9

- A DIGITAL WORLD - Part 3 (Richard Carden)
- A multiband FM-ATV transmitter from 1.2 to 3.5 GHz (Roberto Zech Dg0ve)
- A Winter's Tale (The story of GB3ET) (Trevor Brown)
- DATV-Express Project - January update report (Ken Konechy)
- DATVtalk06 - Field-Testing a DVB-S Transmitter â€“ Part 3 (Ken Konechy)
- Farnsworth (Peter J. Stonard)
- GB3FY CW Generation (John Hudson)
- Streaming video at Dayton 2013 (Tom Medlin)
- Vmix 11 Tally Lights (Trevor Brown)

10

- A Digital World - Part 4 (Richard Carden)
- A simple Digital ATV transmitter for DVBS using a Raspberry Pi (Jan Panteltje)
- Circuit snippets (Trevor Brown)
- Custom programming the COX 350 VTR Clock (Trevor Brown)
- DATV-Express Project - February update report (Ken Konechy)
- DigitalATV - Using a Spectrum Analyzer (Talk 7) (Ken Konechy)
- GB3FY on the air (John Hudson)
- Has USA selected a DATV Protocol yet? (Ken Konechy)

11

- 100W Power Meter (John Hudson)
- ATV Reaches for the Sky (Trevor Brown)
- DATV-Express Project. March update (Ken Konechy)
- Digital ATV - Understanding DVB-S Protocol (Talk 8) (Ken Konechy)
- DVB-T-Receiver HV-110 (Darko Banko)
- Remote Control of Sony Broadcast VT Machines (Trevor Brown)
- Review - eBay MAX7456 OSD Generator Modules (Mike Stevens)
- TUTIOUNE: DATV/DVB-S Measurement and Display Software (Jean-Pierre Courjaud)

12

- A simple 10GHz power amplifier for beginners (Jouan Francois)
- DATV-Express Project - April update report (Ken Konechy)
- Digital World - Part 5 (Richard Carden)
- DigitalATV - Understanding DVB-T Protocol (Talk 9) (Ken Konechy)
- Lidl bike stand (Ted Bottomley)
- Linearity in an Analogue world (Trevor Brown)
- Making Your Own Prototype Printed Circuit Boards (Dave Kenward)
- MAX7456 Callsign & Simple Caption OSD Module Preparation (Mike Stevens)

- New DATV Repeater in Australia (David Carwana)

13

- A Matching System For Two 23 Cms Antennas (Peter Cossins)
- Adding an On Screen Display (OSD) To GB3FY (John Hudson)
- Digital Test signal generator or ITS Inserter (Richard Carden)
- Digital World Part 6 (Richard Carden)
- DigitalATV - Understanding DVB-S2 Protocol (Talk 10) (Ken Konechy)
- MAX7456 eBay OSD Module Sony IR Remote Control (Mike Stevens)
- MAX7456 eBay OSD Module Two Push Button Operation (Mike Stevens)

14

- Bluetooth - Serial TTL Module Review (Mike Stevens)
- Friedrichshafen report (Darren Storer)
- HamRadio report (Klaus Kramer)
- MAX7456 OSD Bluetooth Control Project (Ken Konechy)
- New Style Aerial Rotator With Electronic Servo Control (John Hudson)
- Philips TV history (Klaus Kramer)
- Stan Lebar and the Apollo 11 TV camera (Trevor Brown)
- Turn your Raspberry Pi into a live HDTV transmitter (Alexandru Csete)
- VK5RDC Update (Richard Carden)

15

- Calling all BATC members (Trevor Brown)
- DATV-Express Project - July update report (Ken Konechy)
- Digital Repeater TV DVB-S 1200 MHz 10 GHz (Fabrizio Bianchi)
- MAX7456 OSD Computer USB Controlled (Mike Stevens)
- MAX7456 OSD PC RS232 Serial Programming Interface (Mike Stevens)
- Two Geostationary Amateur Radio Transponders on Es'hail 2 (Peter Guelzow)

16

- Annual Worldwide Amateur Radio Television QSO Party 2014 (Mick Ampt)
- BATC 2014 GRANT DIXON Award (Ken Konechy)
- BATC CAT 14 Experience. We entered the lion's den (Mike Stevens)
- Business as Usual (Trevor Brown)
- DATV-Express Project - August update report (Ken Konechy)
- MAX7456 OSD Modules - Fixing a Broken Bootloader (Mike Stevens)
- Simple ATV Lookthrough Filter (John Hudson)

17

- CQ-DATV Award (Trevor Brown)
- DATV-Express Project - September update report (Ken Konechy)

- DigitalATV - Overview of ITU-T_J.83B Protocol (Talk 11) (Ken Konechy)
- Now For Something Just Slightly Different (Mike Stevens)
- Simple Microwave Detector for 10GHz (John Hudson)
- The Construction system Evanescent Filters (Fabrizio Bianchi)
- The Summer of 1990 (Trevor Brown)

18

- 5W 3cm Digital Power Meter (John Hudson)
- All down the Bar, except the VT Editor (Trevor Brown)
- Amateur Television Status Display - Part 1 (Richard Carden)
- ATV image generator using the Raspberry PI (Ernest Neijenhuis)
- Blade RF transverter with SDR# on Windows (Drew Wollin)
- Converting a CCTV lens from video auto iris to DC auto iris (Drew Wollin)
- Corrections to the DATVtalk11 (Bob Dyer)
- DATV-Express Project - October update report (Ken Konechy)
- DATVtalks Compendium (Ken Konechy)
- Fireworks! (Dave Woodhall)
- Mini Power Amplifier 1200 MHz for Diglite Project (Fabrizio Bianchi)
- New 70cm DVB-T TX at ATV repeater DB0QI in Munich (Thomas Altinger)
- Turn your Raspberry Pi into a live HDTV transmitter (Alexandru Csete)
- Using ODROID with DATV-Express board (Talk 12) (Ken Konechy)
- Video Text Overlay update (Mark Phillips)

19

- 10 GHz SSB with a PLL LNB (Michel Vonlanthen)
- Local Oscillator PLL for Digilite project (Fabrizio Bianchi)
- Moving on with film making - part 1 (Trevor Brown)
- Reader review comments on DATVtalk11 (Ken Konechy)
- To PC or not to PC, that is the question (Ian Pawson)
- Using Raspberry PI to feed a DATV modulator - no PC required (Evariste Courjaud)

20

- Comparing DATV models from BATC, DATV-Express, HiDes, and SR-Systems. (Bob Dyer)
- DATV-Express Project - December update report (Ken Konechy)
- Golden Oldie (Richard Carden)
- Manufacturing a TriBand Dish Feed Steve Noll WA6EJO (Steve Noll)
- Moving on with film making part 2 (Trevor Brown)
- SSB with 10 GHz PLL LNB (Michel Vonlanthen)
- The WiFi to Service of 'Digital ATV (Fabrizio Bianchi)
- UGLYDATV 0.1 (Evariste Courjaud)
- Wi-Fi and Internet connectivity via TTL Serial for your own electronic projects (Mike Stevens)

21

- DATV-Express Project - January update report (Dave Kenward)
- HiDes models comparison update By Ken W6HHC (Ken Konechy)
- Manufacturing a tri-band Dish feed, addendum (Steve Noll)
- Micro Controlled Video Sweeper (John Hudson)
- Moving on with film making, part 3 (Trevor Brown)
- Omni-directional Antenna a TX 10 GHz, Vertical polarization (Fabrizio Bianchi)
- Phased Antenna Array Design (Richard Carden)
- Version 2.R of the DATV DVB-S 437/438.5MHz. (Fabrizio Bianchi)

22

- 24cms Repeater input for GB3FY (John Hudson)
- A Digital World - Digital Conversion (Richard Carden)
- DATV-Express Project - February update report (Charles Brain)
- Moving on with film making Part 4 (Trevor Brown)
- PCB construction (Trevor Brown)
- Video AGC/Limiter Update (Dave Kenward)

23

- ATV greetings by DH7AEQ from Paraguay (Klaus Kramer)
- ATV in Spain (Victorino Martinez Figuero)
- ATV video switching matrix (Wouter Weggelaar)
- CQ-DATV Rescue (Trevor Brown)
- DATV-Express Project - March update report (Ken Konechy)
- Didn't we do well (Ian Pawson)
- I2C Device Bus Scanner to Video Output Project (Mike Stevens)
- Moving on with film making part 5 (Trevor Brown)
- Rally report (Trevor Brown)
- What is happening with Amateur Satellites? (Ted Bottomley)

24

- "CIRCAD" a program old but still valid (Fabrizio Bianchi)
- Antenna Modelling Software (Ken Konechy)
- DATV-Express Project - April update report (Ken Konechy)
- Dayton on stream (Trevor Brown)
- Digital World (Richard Carden)
- Looking at MiniTiouner project to receive Narrow-bandwidth DATV (Jean-Pierre Courjaud)
- Very Simple Video TV Typewriter (Chris Leviston)

25

- 24 GHz ATV, madness? (Chris van den Berg)
- DATV-Express Project - May update report (Ken Konechy)
- Recent 2M and historic ISS transmissions added to Known DATV DX Records (Ken Konechy)
- Reference Audio and Video Switcher (Richard Carden)
- Sourcing accessories for Sony BVP 7 broadcast CCD camera (Trevor Brown)
- Video Codec's and why so many (Rovert Nworb)
- YIG FM transmitter for 23 CMS (John Hudson)

26

- 12 GHz Frequency counter with Rubidium lock (John Hudson)
- CQ-DATV report HAMRADIO 2015 (part 1) (Klaus Kramer)
- HD Wedding shoot (Trevor Brown)
- Programmable Colour Test Card Generator (Richard Russell)

27

- A home constructed 2M hand-held Transceiver (John Hudson)
- Colour Test Card Generator Programming Software (Richard Russell)
- DATV Session Report (part 2) (Ken Konechy)
- DigitalATV – Webcams and UDP and DatvExpressServerApp on Windows (Talk 13) (Jouan Francois)
- HDMI Made Easy: HDMI-to-VGA and VGA-to-HDMI Converters (Witold Kaczurba)
- How to use a testcards features (Trevor Brown)
- RF Breakout Kit for the Raspberry Pi (Jan Panteltje)
- Stand alone SSTV for the Raspberry Pi (Jan Panteltje)
- Using non-Samsung Lenses on the Samsung NX 500 Camera (Trevor Brown)

28

- Easycap USB dongle video capture for amateur television (Tjalling)
- Simple Steadicams (Trevor Brown)
- Wearable Gimbal Stabiliser (Ian Pawson)

29

- 4K video and H265 compression (Trevor Brown)
- Hubble Bubble Etch Tank (John Hudson)
- Quad DVB-T Receiver (Jim Andrews)
- S55TVJ ATV repeater (Rudi Pavlič)
- Si5351 Xtal Substitute Module (Terry Mowles)
- Simple ATV Callsign & Bitmap Graphic Generator (Tom Medlin)
- Understanding Repeater Housekeeping (Richard Carden)

30

- Aerial photography (Dave Woodhall)
- Christmas Shoot Revisited (Trevor Brown)
- DATV-Express Project - October update report (Ken Konechy)
- Difference between DVB-T, DVB-S and DVB-C (Ken Konechy)
- DVB-T using the HiDes modules (Mel Whitten)
- DVB-T2 HEVC at the door (Klaus Welter)
- DVB-T: A Solution for ARES Television Operations (Jim Andrews)
- Home-brew (Rudi Pavlič)
- Nothing Whatsoever to do with Television! (Ted Bottomley)
- Show and Tell! (Ted Bottomley)
- The good old days? (Rudi Pavlič)

31

- A new past time (Armand Hoffstetter)
- An Introduction to DATV - Part 1 (Richard Carden)
- DATV-Express Project - November update report (Ken Konechy)
- FreeDV (David Rowe)
- Pi-SSTV (Gerrit Polder)
- TFT Screens (John Hudson)

32

- 24cms Look through filter using a YIG (John Hudson)
- A Cheap Effective Antenna for Ham-TV Reception from the ISS (Trevor Brown)
- An introduction to DATV – Part 2 (Richard Carden)
- Assembling a temperature controlled soldering station (Mike Stevens)
- CQ-DATV remembers Matilda (Trevor Brown)
- DATV-Express Project - December update report (Ken Konechy)
- FM-ATV alignment - a new approach (Thomas Altinger)
- GPS disciplined 12GHz Frequency Counter (G3RFL design) – Follow up (David Holden)
- LG OLED-UHD-TV top quality (Klaus Kramer)
- The problems of still pictures and flash guns - Part One (Trevor Brown)

33

- Antenna Rotator with a TFT direction indicator (Tom Doyle)
- DATV-Express Project - January update report (Ken Konechy)
- Raspberry Pi Zero development system within a strict budget (Mike Stevens)
- The problems of still pictures and flash guns - part 2 (Trevor Brown)

34

- DATV-Express Project - February update report (Ken Konechy)
- DATV-Express Project report (Ken Konechy)
- Idea to finished project? (Trevor Brown)
- Not so Vertical Collinear (Alan Critchley)
- Raspberry pi Zero - preparing for software development tasks (Mike Stevens)
- The problems of still pictures and flash guns - part 3 (Trevor Brown)
- Video router update (Tim Forrester)

35

- 3D Printing a Horn Atenna for 10Ghz (John Hudson)
- 3D printing and amateur radio (Jonathan Hare)
- Raspberry Pi Zero Contest Number Generator (Mike Stevens)
- Surprising neighbourhood (Klaus Welter)

36

- A VSWR Tool for ATV 23cm 1230 to 1350MHz (John Hudson)
- Comments on My life with Teletext (Alan Critchley)
- Contest number generator – Update (Terry Mowles)
- DATV-Express Project - May update report (Ken Konechy)
- International ATV meeting 2016 (Štefan unknown)
- My life with Teletext (Peter Kwan)
- Raspberry Pi Zero Very Simple Colour Bar Generator (Mike Stevens)
- Teletext editing Software and Raspberry pi Server (Mike Stevens)
- Video Matrix (Ulrich Vogel)

37

- Adding 360° rotation to my pump up mast (John Hudson)
- Es'Hail-2 Geostationary P4-A Transponder Frequencies (Peter Guelzow)
- First-Hand: My Ten Years at Ampex and the Development of the Video Recorder (Fred Pfost)
- Report from ATV meeting 2016 in Gloevzin (Klaus Kramer)
- Revised DX lis (Ken Konechy)

38

- DATV-Express on Windows using Express DVB-S Transmitter Software (Talk 14) (Guido Giorgini)
- DATV-Express Project - June update report (Ken Konechy)
- First-Hand:My Ten Years at Ampex and the Development of the Video Recorder (Fred Pfost)
- New from HiDes (Darko Banko)
- New Pump-up Mast Aerial Rotator - part 2 (John Hudson)
- Teletext Page 100 updated from CQ-DATV 36 (Mike Stevens)
- The second converter (Mauro Cok)
- Two ways to make a down converter for the range of 23cm DVB-T (Alessandro Nicli)

39

- DATV-Express Project - July update report (Ken Konechy)
- Es'Hail-2 Geostationary P4-A Transponder Frequencies (Peter Guelzow)
- First-Hand:My Ten Years at Ampex and the Development of the Video Recorder (Fred Pfost)
- Lancelot the link truck (Scott Richardson)
- MAX7456 OSD Font Editing (Rainer Mueller)
- Mini MAX7456 OSD Module Review (Mike Stevens)
- The Marconi Story (John Hudson)

40

- A 70cm DATV DVB-T 7 MHz band-pass filter using a cheap Chinese duplexer (Drew Wollin)
- ATV Mast Project (Mick Ampt)
- DATV-Express Project - August update report (Ken Konechy)
- Great Cow Basic Compiler Quick Overview (Ernest Neijenhuis)
- Known DX Records for DATV (Marco Geels)
- Simple to build 8 Channel Video Switcher Project (Mike Stevens)
- Will CQ-TV as the printed magazine finally go the way of the

last Dodo? (Mike Stevens)

41

- 50MHz Sine Wave Signal Generator (John Hudson)
- Analogue 8x1 Video and Audio Switcher - Part 1 (Richard Carden)
- Correction to CQ-DATV 40 MAX455 Switcher (Ernest Neijenhuis)
- DATV repeater linking (Grant Taylor)
- DATV-Express Project - September update report (Ken Konechy)
- Record and stream live video! (Trevor Brown)
- Testing a cheap Chinese duplexer as a 70cm DATV DVB-T 7 MHz TX filter- Wow! (Drew Wollin)
- The DATV-Express Project Team asks: “Should the team build More Boards?” (Ken Konechy)

42

- All down the Bar, except the VT Editor (Trevor Brown)
- BBC History launches archive to mark 80 years of Television (Trevor Brown)
- DATV-Express Project - October update report (Ken Konechy)

43

- Analogue 8x1 Video and Audio Switcher-Part 3 (Richard Carden)
- From TV-AMATEUR 183 (Jvrg Hedtmann)
- More Efficient Mobile Encodes for Netflix Downloads (Witold Kaczurba)
- Trevor’s Christmas (Trevor Brown)
- vMix Video Mixer for DATV (Talk 15) (Ken Konechy)

44

- ATV in Slovenia (Rudi Pavlič)
- DATV-Express Project - December update report (Ken Konechy)
- DATV-Express, a high performance TX DVB-S, DVB-S2, DVB-T ! (Pierre Binggeli)
- ESP BASIC (Trevor Brown)
- Update - Video overlay project (Deian Lazarov)
- WeMos D1 mini ESP8266 Stackable Development System (Mike Stevens)

45

- CEC Explained (Ian Pawson)
- DATV-Express Project - January update report (Ken Konechy)
- Getting Television off the ground (Trevor Brown)
- The ESP8266 “Smorgasbord” for project development - Part 1 (Mike Stevens)
- The MiniTiouner Receiver/Analyzer for Digital-ATV (Talk 16) (Ken Konechy)

46

- DATV-Express Project - February update report (Ken Konechy)
- Hints and Tips (Darko Banko)
- I2C Controlled Stepper Motor (Trevor Brown)
- Looking at DATV Repeaters in USA (Ken Konechy)
- Silent Key (Alan Critchley)
- Simple Blue Screen Eliminator (Dave Woodhall)

47

- An automatic Blue Screen Eliminator (John Hudson)
- DATV-Express Project - March update report (Ken Konechy)
- From TV-AMATEUR 184 (Klaus Kramer)
- GA to AV Converter Modification & Switcher (John Owen)

48

- DATV-Express Project - April update report (Ken Konechy)
- Mysterious Aircraft (Dave Woodhall)
- Simple Cost Effective 3cm Frequency Counter (John Hudson)
- VGA Pattern Generators for ATV (Mike Stevens)

49

- An FM TV Transmitter using the HB 100 (John Hudson)
- DATV-Express Project - May update report (Ken Konechy)
- The Node MCU module and its BASIC programming Due to a lack of 'elbow grease', this article is held over to the next issue. (Mike Stevens)

50

- 50 Years of Colour Television (Trevor Brown)
- A Digital World - An Introduction to DATV (Richard Carden)
- A Simple Home Constructes Weather Station (John Hudson)
- Building the Portsdown in the real world (Bob Dyer)
- DATV-Express Project - June update report (Ken Konechy)
- Gave a good Digital-ATV Presentation to JPL Ham Club in Pasadena (Ken Konechy)
- GB3FT - A 24cm Digital ATV Repeater for the Fylde Coast (Tim Forrester)
- Micro Corner - Node MCU BASIC and I2C control (Trevor Brown)
- MP3 Sound Module Review & Application Notes (Mike Stevens)
- Results IARU ATV activity weekend/contest 2017 (Chris van den Berg)
- Silent Key (Dave Kenward)
- The popular Video sync generator; The new 'Syncsmurf' (David Roosendaal)

51

- A Digital World - Repeater Input upgrading (Richard Carden)
- ARRL/TAPR DCC (Digital Communications Conference) (Mark Thompson)
- Correction (Patrick Tilborghs)

- DATV Repeater Project (Grant Taylor)
- DATV-Express Project - July update report (Ken Konechy)
- I2C Bus - Creating Your Own Custom Slave Devices (Mike Stevens)
- IARU (Rudi Pavlič)
- Modified PA with MRF6VP3450H (470-860MHz) to 436MHz (Patrick Tilborghs)
- Open Shot Video Editor (Trevor Brown)

52

- DATV-Express Project - August update report (Ken Konechy)
- Digital World - Looking at 10 GHz ATV (Richard Carden)
- IARU again (Dave Crump)
- Micro Corner -LCD displays (Trevor Brown)
- Openshot Video Editor - part 2 (Trevor Brown)

53

- DATV-Express Project - September update report (Ken Konechy)
- Magic Lanterns (Trevor Brown)
- Micro Corner - real-time clock (Mike Stevens)
- Portable ATV Repeater (Rudi Pavlič)
- Television Camera Lenses: The Basics (Ron Whittaker)
- TV-AMATEUR 186 translations (Klaus Kramer)

54

- 10.5GHz RSSI Power Level Detector (John Hudson)
- DATV-Express Project - October update report (Ken Konechy)
- DigiTwist (Brian Jordan)
- Openshot Christmas (Trevor Brown)
- Simple VMIX Software USB Button Controller (Mike Stevens)

55

- Construction of a 23cm 1296 MHz Bi-Quad Antenna (Andrew Mosley)
- DATV-Express Project - November update report (Ken Konechy)
- Decontis dtvtools DVB-T/S measurement, analysis and monitoring software (Drew Wollin)
- Live via Satellite (Trevor Brown)
- Sinclair Spectrum (Dr. John Lannigan)

56

- Antenna Polar Diagram Plotter (John Hudson)
- Basic VMIX Software IR Remote Controller (Mike Stevens)
- DATV-Express Project - December update report (Ken Konechy)
- From TV-AMATEUR 187 (Klaus Kramer)
- M0KPW ATV (Chris Leviston)
- TV Video Connectors (Trevor Brown)

57

- DATV-Express Project - January update report (Ken Konechy)
- DiY RF Power / VSWR Meter. Low Cost! (Thomas Black)
- GB3FB at 9cm (Tony Horsfall)
- M0KPW ATV (Chris Leviston)
- Portable repeater update (Mauro Cok)
- TV Video Connections - Part 2 (Trevor Brown)

58

- CCTV Camera LED Ring Light (Mike Stevens)
- DATV-Express Project (Ken Konechy)
- Dual Range Power Meter (John Hudson)
- Micro Minim OSD (Marco Geels)
- Transmission setup (Armand Hoffstetter)
- Trevor Looks back to a 70's TV studio (Trevor Brown)
- When is a splitter not a splitter but a high pass filter? (Dave Woodhall)

59

- 50 Years of Colour Television (Trevor Brown)
- An Important MiniTiouner-Express update (Ken Konechy)
- DATV-Express Project (Ken Konechy)
- Facebook and CQ-DATV (Trevor Brown)
- Rotor controller (Marco Geels)
- Running the Cropedit Editing Software on Windows 7 or 10 (Mike Stevens)

60

- 5.6GHz ATV (Gwil Jones)
- 50 years since P.A.L - Bringing P.A.L. to ATV (Trevor Brown)
- Analogue 8x1 Video and Audio Switcher - Part Repeater controller (Mike Stevens)
- Analogue 8x1 Video and Audio Switcher - Part Repeater controller (Richard Carden)
- DATV-Express Project (Ken Konechy)
- Rotor controller Veron VRZA Twente (Marco Geels)

61

- 50 years since PAL (Trevor Brown)
- A Look at SPG's and Colour Bar Generators (Richard Carden)
- Analysis: DVB-T2 Australian Television Networks Test Transmission (Dr. Gough Lui)
- ATV Contest IARU Region 1 9-10 June 2018 (Giorgio de Luca)
- G8AYC's visit to Friedrichshafen Ham Fest (Nigel Walker)
- IARU International ATV Contest June 9/10 (Dave Crump)
- The Contest (David Shaw)

62

- 50 Years since PAL - The D-Mac system (Trevor Brown)
- Conversion and use of PLL-LNBs (Herbert Hommel)
- DATV-Express Project (Ken Konechy)
- Digital Test signal generator or ITS Inserter (Richard Carden)
- IARU Contest Results (Ian Parker)
- Kdenlive (Trevor Brown)
- LCD digital microscope G600 (Rainer Mueller)
- Portable Antenna Masting System (PAMS) (Jack Albers)

- This backpack will carry the entire 'Monsen - minute by minute' (Martin Johannessen)

63

- 2018 Region 1 ATV Contest Results (Dave Crump)
- A look at Repeater Control Hardware and Software (Richard Carden)
- VIT Character generator (Trevor Brown)
- VMIX Matrix 16 Way Keypad Controller (Mike Stevens)

64

- Amplifier Output Power for Various Modulations (Jim Andrews)
- Conquering 10 GHz DVB-T in S5 - Slovenia (Rudi Pavlič)
- New Satellite Receiver for 23cm and Repeaters Using DVB-S/S2 (Richard Carden)
- Printing Artwork onto PCB's without UV (John Hudson)
- White Christmas to White Powder (Trevor Brown)

65

- DATV-Express Project (Ken Konechy)
- How to win an ATV Contest the Italian Way (Guido Giorgini)
- Spark Plugs to Video Tape the BOSCH Way (Trevor Brown)
- Switcher Key Pad Interfacing (Richard Carden)
- Switcher Key Pad Interfacing (Mike Stevens)
- Translations from TV-AMATEUR 190 (Klaus Kramer)

66

- 70cm Antennas for ATV (Jim Andrews)
- 70cm vs. 23cm Band Activity (Jim Andrews)
- DATV-Express Project Report (Ken Konechy)
- Matching 50ohm to 75ohm (Brian Beezlet)
- The ABC of Broadcast Video Tape Recording. (Trevor Brown)
- The Mini Router Switcher (Richard Carden)
- The Mini Router Switcher (Mike Stevens)

67

- 70cm Band-Pass Filter (Jim Andrews)
- Arduino SimpleSat Rotor Controller (Tom Doyle)
